I make practical, unusual and decorative silverware and jewellery including bangles, bookmarks, boxes, brooches, buckles, candlesticks, chains, christening spoons, cufflinks, earrings, napkin rings, necklaces, pendants, paperknives, rings ... and a whole range of other invaluable items from clothes pegs to silver wishbones.

I particularly enjoy making pieces, in silver or gold, that mark or stimulate memories of specific occasions or people.

As far as possible, I do all the stages of the work from initial design to final polishing. I offer a personal service face to face, by phone or email.
